

UWS Wireless Network

Connecting Windows 8 Devices to Wireless Network

PLEASE NOTE IF YOUR LAPTOP HAS NORTON ANTI-VIRUS SOFTWARE IT WILL NOT CONNECT TO THE WIRELESS NETWORK IN THE UNIVERSITY.

Windows 8 Start Screen 1

Desktop with Charms Bar visible

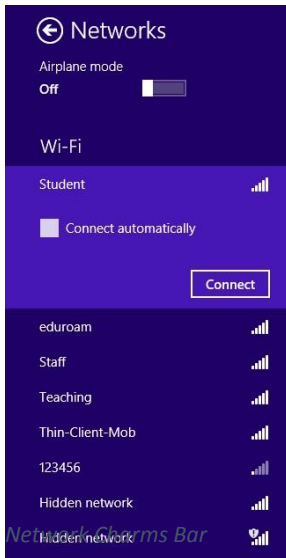

From windows 8 start screen, click **Desktop**.

Move mouse to bottom right hand corner of screen and the “Charms bar” will appear, where you can click **Settings**. Alternatively on keyboard use “Start+c” for charms bar. Or from Desktop click “Start+i” to go straight to Settings Charm Bar.

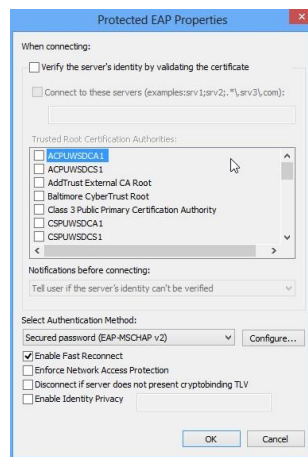

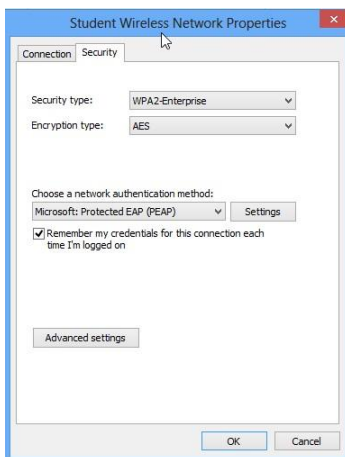

Settings Charm Bar

Click Available and then click Student, uncheck **Connect Automatically** and then right click eduroam and select View Connection Properties

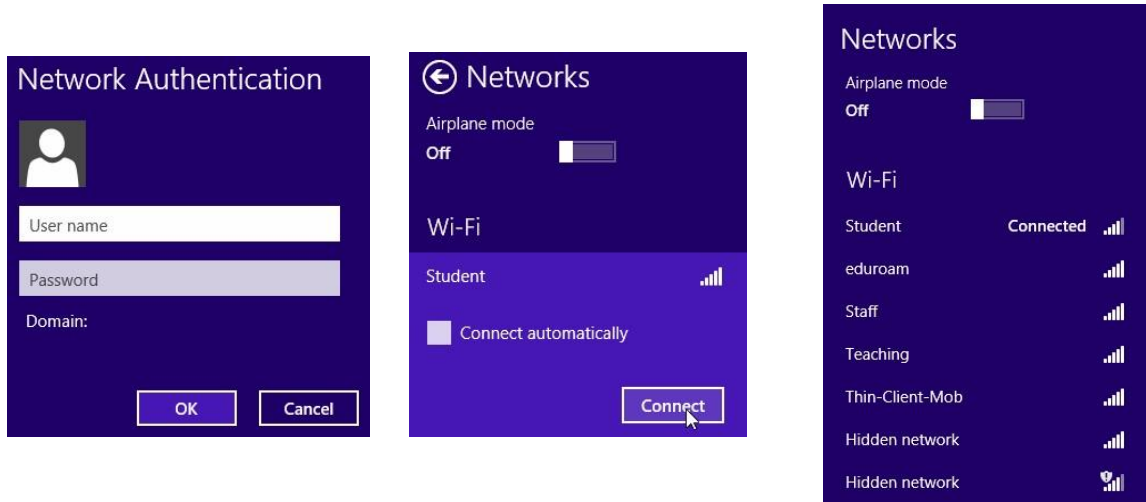

Security type should be WPA2-Enterprise, Encryption type should be AES, under “Choose a network authentication method:” choose “Microsoft Protected EAP (PEAP)” and then click settings

Uncheck “Verify the server’s identity by validating the certificate” and click OK and click OK again.

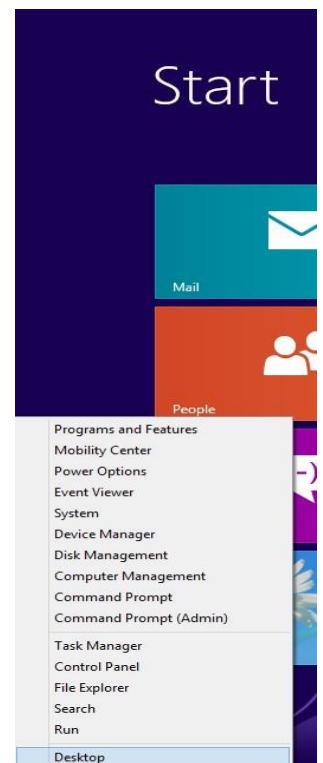

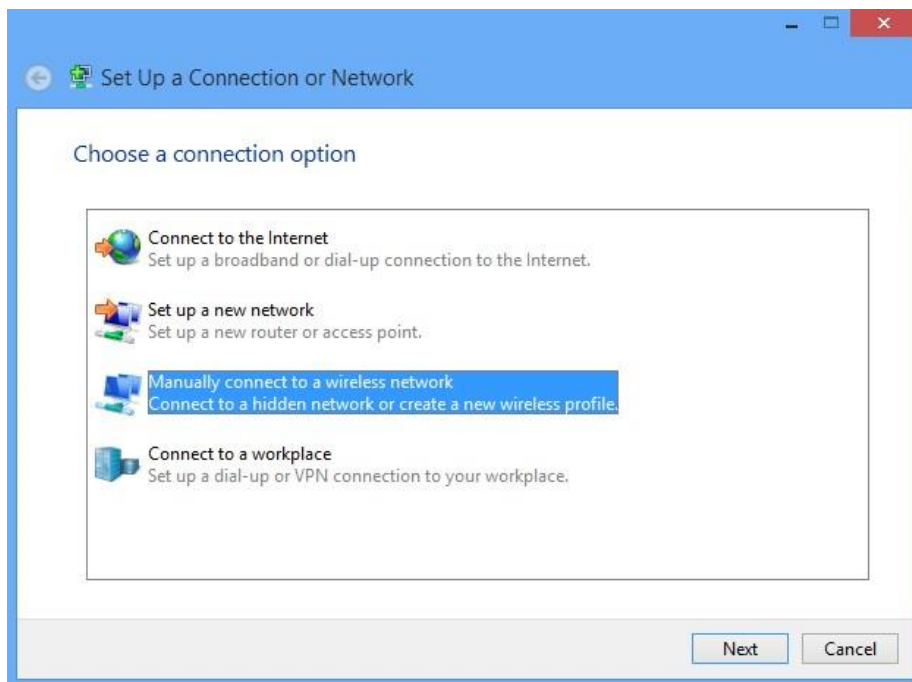

Once the above settings have been configured, click the Wireless Network icon in the system tray (down beside the clock). When the Networks Charms Bar appears, click **eduroam**. Uncheck **Connect Automatically** and click **Connect**. Enter your username as your email address BannerNumber@studentmail.uws.ac.uk or for staff `firstname.lastname@uws.ac.uk` and then your Moodle / Pc Logon password. Then click OK.

Troubleshooting

If the student is unable to right click on the Charms Bar, do the following:-

From Start Environment right click at the lower left hand corner of the screen and a context menu will appear. Click Control Panel and this will open the standard Control Panel, where you select:-

Network and Internet

Network and Sharing Centre

Setup New Connection or Network

Click **manually connect to a wireless network** and then input the settings as [above](#).
