

# **ENGAGING NON PERMANENT EMPLOYEES AND WORKERS PROCEDURE**

#### 1. INTRODUCTION

The aim of this document is to outline the policy and procedure to be followed in the recruitment and payment of all non-permanent employees and workers.

This policy and procedure must be read in conjunction with the University's Recruitment and Selection Procedure, and the University Staffing Authorisation Procedure.

Where approval through the University Staffing Authorisation Procedure is required, this must be obtained prior to commencing any recruitment and selection process.

This procedure applies to the recruitment of **all** non-permanent posts. This includes (but is not limited to) fixed term contracts, Associate Lecturers, "casual" or short term staff, staff on zero hours contracts, etc.

The classification of work, along with the duration of work, will determine the administrative and approval procedure to be followed.

All work is to be classified as either a pre-defined activity or a non pre-defined activity.

At present the pre-defined activities are the following, although the list will be updated as required:

- Associate Lecturer
- Invigilator/Senior Invigilator
- Demonstrator
- Marker
- Scribe / Reader
- Notetaker
- Sessional Interviewer
- Student Roles
- ECDL Invigilator
- Independent Practice Teacher

- Junior Consultant
- Consultant
- Senior Consultant
- Junior Trainer
- Trainer
- Senior Trainer

NB: the posts listed above are under development

Non pre-defined activities includes all other activities. (This may include instances where there is a variation on pre-defined activities).

The planned duration of work should be identified at the outset. Different administrative and approval processes apply for work lasting more than one month, and for work lasting one month or less. During the course of work, should it become evident that the work will last longer than the initial planned duration, the recruitment manager must refer to their HR Business Partner to determine the appropriate approval procedure and recruitment and selection process.

For the purpose of this policy, one month is defined as one calendar month. This means from the date in one month to the preceding date in the next month (e.g. 4<sup>th</sup> February to the 3<sup>rd</sup> March, except where it is the first of the month when it will be to the end of the calendar month (e.g. 1<sup>st</sup> March to the 31<sup>st</sup> March).

#### 2. OBJECTIVES OF PROCEDURE

The objectives of this procedure is to ensure that: his policy and procedure aims to ensure that:

- An appropriate, transparent and consistent recruitment process is followed for all nonpermanent posts.
- The recruitment process for all non-permanent posts complies with relevant employment legislation.
- Responsibilities of individuals and departments (including People and OD, Finance Office, Academic Schools and Professional Service Departments etc) with regards to the recruitment and payment of non-permanent staff are clearly defined and understood.
- An adequate and effective internal control system is in place surrounding the process for recruiting and paying non-permanent staff.
- The Department of People and OD has the appropriate level of involvement in the recruitment of all non-permanent staff (dependent on classification and duration of work).

#### 3. PROCEDURE

#### 3.1 General

The 'recruiting manager' is the School or departmental manager who has identified the need for a non-permanent post to be filled.

The recruiting manager must first liaise with his/her HR Business Partner prior to any proposed post being advertised or any approach being made to any individual for such a post.

The recruiting manager must provide his/her HR Business Partner with a written proposal which sets out the following details as a minimum:

- The proposed role/activity (including confirmation of whether activities are pre-defined or non pre-defined)
- The proposed duration of work
- The proposed pattern of working hours
- The proposed level of pay and the basis on which payment is to be made (for example, whether though PAYE or consultancy fees – refer to Section 5 below for further information on consultancy fees).

The HR Business Partner will confirm the administrative and approval process to be followed dependent on the classification and planned duration of the work.

#### 3.2 Pre-Defined Activities

A generic job descriptor has been prepared for each pre-defined activity and has been job-matched and allocated a grade. In addition, standard rates of pay have been determined for each pre-defined activity. These rates of pay correspond to the appropriate pay scale. Recruiting managers should refer to their HR Business Partner for guidance on generic job descriptors, current pay scales, and information on the conditions of service.

## Work lasting one month or less

The recruitment process for pre-defined activities with duration of no more than one month is simple and straightforward, and is outlined in HR1 Flowchart. The University Vacancy Management and Staffing Authorisation Procedure will not apply to posts which fall into this category.

# Work lasting more than one month, but no longer than three trimesters

Where work is anticipated to last more than one month but no longer than three trimesters, the recruitment process outlined in HR2 Flowchart applies. To comply with relevant employment legislation, the University is required to issue a contract of employment for all posts lasting more than one month. To meet this requirement whilst ensuring that the associated administrative and approval process is as simple and straightforward as possible for pre-defined activities, a separate process has been established for posts which fall into this category. As before, the University Vacancy Management and Staffing Authorisation Procedure does not apply.

# Work lasting more than three trimesters

Where work is anticipated to last more than three trimesters, the University Staffing Authorisation Procedure applies. Recruiting managers must refer to the University Recruitment and Selection procedure when filling such vacancies.

# Rate of Pay for Pre-Defined Activities

Standard rates of pay have been determined for each pre-defined activity which corresponds to the appropriate pay scale. Whenever possible, all pre-defined activities should be paid at the standard rate. If the recruiting manager wishes to pay a rate in excess of the standard rate for the pre-defined activity, written approval must be obtained from Dean/ Director and HR by completing the Excess Rate of Pay Justification and Approval Form (HR4 ERP Form). A copy of this approval should be retained in the School/Department.

## 3.3 Non Pre-Defined Activities

If the recruiting manager proposes a non-permanent post which does not fall within the scope of the pre-defined activities, the recruiting manager is required to prepare a job descriptor for the post and forward this to his/her HR Business Partner for consideration. The post will be job-matched to enable an appropriate grade and rate of pay to be identified. This process will ensure that the role has been evaluated in the context of other University posts, and upholds the principle of equal pay for work of equal value.

If the recruiting manager proposes a post which is similar, but not exactly the same, as any of the pre-defined activities described above, the HR Business Partner will consider whether the variation in job descriptor is significant enough to require the job to be rematched. If that is considered appropriate, the job descriptor will be subjected to a job matching process in order to establish the correct grade.

#### Work lasting one month or less

The recruitment process for non-permanent employees for activities which do not fall within the list of pre-defined activities is outlined in HR3 Flowchart. The process aims to be as straightforward and simple as possible. The University Staffing Authorisation Procedure will not apply to posts which fall into this category.

# Work lasting more than one month

Where work does not fall within the pre-defined activities and is anticipated to last more than one month, the University Staffing Authorisation Procedure applies. Recruiting managers must refer to the University Recruitment and Selection Procedure when filling such vacancies.

#### Rate of Pay for Non Pre-Defined Activities

The recruiting manager will be advised of the appropriate rate of pay by his / her HR Business Partner. In the event of a recruiting manager wishing to pay in excess of the rate advised, written approval must be obtained by completing the Excess Rate of Pay Justification and Approval Form (HR4 ERP Form).

There may be cases where it is appropriate for a market supplement to be paid. The Rewards Team is developing a procedure in this regard.

# 3.4 Payment Process

Non-permanent employees and workers are paid through completion of the appropriate Payroll Payment Request Form (with the exception of a limited number of posts of a fixed term nature where the individual is paid a regular monthly salary).

Two Payroll Payment Request Forms are available for this purpose:

- Form P/1:Payroll Payment Request (Pre-Defined Activities)
- Form P/2: Payroll Payment Request (Non Pre-Defined Activities)

The process for submitting a Payroll Payment Request is outlined in HRP1 Flowchart and HRP2 Flowchart. All payments must be made in arrears.

All payroll payment requests require to be approved by an authorised signatory. By signing the payroll payment request, the authorised signatory confirms that it is an accurate record of work performed and that the terms and conditions under which the payment is being made comply with this policy and procedure. The supporting documentation should confirm the activity the individual is engaged for, and the rate of pay (for example, a copy of the letter or contract issued to the individual). The authorised signatory also confirms that supporting documentation is retained within the School/Department to support the payment. Documentation to be retained by School/Departments will include copies of employment registration forms, standard letter and payroll payment request forms.

# 3.5 Payment by Invoice

On occasion, it may be appropriate to pay an individual following submission of an invoice rather than a payroll payment (i.e. to treat the individual as self-employed rather than an employee). This situation is rare. Employment status is not a matter of choice. Parties cannot simply decide to treat working arrangements as either employment or self-employment. The circumstances of the engagement determine how it is treated. It is irrelevant if an individual has self employed status with another organisation.

If an individual requests to be treated as self-employed rather than as an employee, written approval must be obtained from Finance prior to any such agreement being made. Finance will consider the circumstances of the arrangement and, through consultation with HMRC guidance, will form an opinion on employment status. The decision of Finance in such cases will be final.
