VISAS:	If you are from outside the European Economic Area (EEA) and Switzerland, you can apply for a short-term study visa. Make sure you check the immigration requirements before applying (visit www.gov.uk/study-visit-visa for more details). You will receive a confirmation of booking and you should carry this confirmation with you when travelling. You can apply for a visa up to three months before your date of travel to the UK. You should get a decision on your visa within three weeks. You will need to attach an offer letter to your visa application. The offer letter is a 'Booking Complete' email, which is sent to you once you have booked and made full payment for the Summer School.

Course overview

The overall aim of the one or two week UK Football Study Programme is to provide participants with an understanding of current issues relating to the theory and practice of football coaching. This innovative curriculum has been designed by combining the applied skills, expertise and knowledge of UEFA qualified coaches and academics.

Learning outcomes

1. You will gain an understanding of contemporary football coaching development and practice.
2. You will gain an understanding of the key practical and analytical skills and knowledge to maintain and develop professional skills in football coaching.

WE BELIEVE IN PARTNERSHIPS

Football is the UK's most popular sport with the first professional football clubs formed in the late 19th century. England, Scotland, Wales and Northern Ireland each have their own national football association with Scotland's Scottish FA, founded in 1873, playing an important role in football worldwide.

UWS prides itself on its strong football industry links with our national clubs including Glasgow Celtic and Glasgow Rangers, as well as our links with local community organisations and award winning partnership with St Mirren FC. The Football Coaches Development Programme will be delivered in partnership with Wolverhampton Wanderers FC combining their international reach and connections with the FA Premier League to Scottish FA, to ensure a diverse and innovative programme.

We have a fantastic range of sporting and fitness facilities. Our team of enthusiastic and committed staff will provide a supportive and flexible learning environment to deliver a multidisciplinary understanding of contemporary sports coaching development and practice within a simulating environment.

We prepare coaches to train and develop the next generation of young footballers with participants gaining Scottish FA level 1 awards. Scottish coaching certificates have been held by renowned football managers such as Sir Alex Ferguson, Fabio Capello, Arrigo Sacchi, Carlos Queiroz and Andre Villas-Boas.

About UWS

University of the West of Scotland has origins dating back to 1897 and has around 17,000 students studying on five campuses in the UK. Our five Schools teach courses in the disciplines of Business & Enterprise; Education; Engineering, Computing & Physical Sciences; Health & Life Sciences; and Media, Culture & Society. Our largest campus is in Paisley, just outside Glasgow - Scotland's largest city.

Studying in Scotland

Scotland is an exciting place to be, with more world-class universities per head of population than anywhere else in the world; the highest rates of student satisfaction in quality of teaching in all of Britain; and Scotland's graduates have the highest rate of employment or further study in the whole of the UK.

Weather

The weather in Scotland is temperate; expect temperatures of 15-20 degrees Celsius in the summer. It does not rain as often as you may think but it is worth bringing a rain coat and a few warm layers of clothing (especially if you are from a hot country) as the weather can be a little unpredictable!

Lanarkshire Campus

Our new £110 million campus, located at Hamilton International Technology Park, opened in 2018 and our interactive and technology-rich learning spaces are up there with the most innovative in the UK.

Transport

If your course requires any travel (for example to industry visits) you will travel by University minibus or public transport; this cost is included in the price of your course. We are also able to provide a transfer from the airport to the student accommodation when you arrive for an extra charge.

Accommodation

UWS offers high-quality accommodation in single, en-suite rooms; accommodation is either on campus or within a 5-10 minute walk from your class location and other campus facilities. Some accommodation shares social space (for example, 4-6 bedrooms share a kitchen and living area), other accommodation is offered as a self-contained studio.

Paisley Campus accommodation

Meals

Our programmes allow you to have flexibility around meals. You can choose to shop and cook for yourself in your self-catered accommodation. Alternatively we provide meal packages at our student canteen, very close to the accommodation. You can choose from the following options: Breakfast (B&B), Breakfast & Dinner (Half Board), Breakfast & Lunch (Half Board), Breakfast, Lunch and Dinner (full board). You can also choose to pay for meals during the week and organise your own meals at weekends. All meals include a hot option.

Studying at UWS

All courses at UWS are taught by professionals who are experienced in their subject. Our lecturers come from all over the world and many worked in industry before joining the University, so you will be taught by people with a wide range of experiences. You will typically study five mornings and two to three afternoons per week (around 21 hours of tuition in total), plus you will attend sessions on life and study in the UK.

Free time

The courses are designed so you will have free time in the evenings and weekends to socialise with your classmates or explore Scotland. UWS will arrange some cultural and social activities as part of your course, and we are always happy to advise and arrange visits around Scotland for you, or help you plan your trip.
