The International Student Support Team welcomes you to UWS!

We wish you well with your studies and hope that this guide provides you with some useful information for settling in.

Many aspects of student life will be impacted by restrictions due to the pandemic. Businesses may be operating in different ways with limits on activities and services that can be offered. Check with venues before making plans and ensure that you comply fully with the latest UK government advice for the area that you live in.

The International Student Support Team is here to support you and ensure that you get the most out of your student experience. The team offer advice and guidance in a number of areas that may be relevant to you during your studies, including:

- Immigration matters, such as complying with student visa conditions.
- Visiting Europe for a holiday, attending conferences abroad or returning to your home country.
- Working in the UK during and after your studies.
- Hints and tips on settling into life in the UK and meeting local people.
- Bringing dependants to the UK to live with you or inviting relatives to visit you during your studies.
- Liaising with academic staff regarding your studies.
- Advising on ways of resolving financial issues.
5 things to do in your first week at UWS

1) Arrange a Check in and Chat appointment

You will hopefully find that your time studying and living in the UK will be a rewarding experience which you look back on with good memories.

Whether you are self-isolating or have just recently arrived in the UK, we would very much like to give you a call to see how you are settling in and to check you are aware of the support services within the university.

If you have not done so already, please fill out the form at this link: https://ecv.microsoft.com/jZfOhnlkqb so that we can arrange a ‘Check in and Chat’ appointment with you.

It may take time to settle in, especially if this is your first visit to the UK, and you will probably experience some aspects of ‘culture shock’ – the impact of moving from a familiar culture into an unfamiliar one. Culture shock can have a significant effect on your emotions. Initially, you may feel excited and keen to learn about the University and about living in the UK. However, as you become more aware of the differences between life in your home country and life here, you might start to feel more unsettled, especially if you are feeling homesick or missing familiar aspects of life back home. See the UK Council for International Student Affairs (UKCISA) website for further information - https://ukcisa.org.uk/Information--Advice/Preparation-and-Arrival/Facing-culture-shock

You may be instructed by the UK/Scottish Government to self-isolate for 10 days on arrival into the country. Note that this could include hotel quarantine. Please be assured that if you need to self-isolate, the International Student Support team and other UWS services are still available to offer support virtually.

You can contact the Counselling Service or International Student Advisers if you would like to come and talk about anything that’s bothering you. You can access these services and arrange appointments at the Hub by calling 0141 848 3800 or by emailing hub@uws.ac.uk. Virtual appointments can be arranged - please discuss your options with the Hub team when you get in contact. You can also access a range of wellbeing resources online at www.uws.ac.uk/current-students/supporting-your-health-wellbeing/counselling

There may also be differences in the laws governing your home country compared to the laws in the UK. See the government website www.gov.uk/browse/justice for information on UK law. See the Guide to Scots Law at www.cas.org.uk/system/files/a_guide_to_scots_law.pdf which provides guidance to people coming to live in Scotland.
2) Collect your Biometric Residence Permit (BRP) and register with the Police (if applicable)

If you were granted a short stay permit to come to the UK, you will need to collect your BRP from a specified Post Office within 10 days of arrival in the UK. For further information see the UK Council for International Student Affairs (UKCISA) website: www.ukcisa.org.uk/Information--Advice/Visas-and-Immigration/Making-a-Student-route-application-in-the-UK

You will have received an email with instructions from the Home Office on how and where to collect your BRP. If you are required to self-isolate on arriving in the UK, do not go to the Post Office until after you have observed the required quarantine period.

Take your letter confirming your entry clearance with you when you go to collect your BRP. Contact an International Student Adviser if you experience any issues with collecting it. It is useful to take a photocopy of the personal information and visa pages in your passport and both sides of your BRP card and keep them safe in case either is lost or stolen and you have to apply for replacements during your stay here.

On arrival into the UK you may have been given a stamp in your passport requiring you to register with the police. Collect your BRP from the Post Office first and then register with the police. It is a requirement to register with the police within 7 days of collecting your BRP. For further information, see www.uws.ac.uk/international/visas-immigration-atas/information-for-prospective-students/

For up-to date information on police registration, London Campus students should check www.met.police.uk/advice/advice-and-information/ov/registered-overseas-visitor and Scottish campus students should check http://www.scotland.police.uk/contact-us/overseas-visitor-registration-registering-with-the-police
3) Open a UK Bank Account
To open a bank account, you will need your passport or identity card and a ‘bank letter’ from UWS. If you are studying at a Scottish campus, you can request this letter through the Hub portal at https://uws.topdesk.net/tas/public/login/form. London campus students should e-mail london@uws.ac.uk for this letter. Basic bank accounts are easier to open than other types of account. With some UK banks, you may be able to open an account online with a follow-up appointment via Zoom for example rather than having to attend the branch in person. If you need to quarantine on arrival in the UK, you won’t be able to visit a bank in person until after the quarantine period has ended.

There are many fully online or app-based bank accounts. For more information see www.savethestudent.org/money/best-digital-app-banks.html

Check Unidays www.myunidays.com/GB/en-GB and Student Beans www.studentbeans.com/uk for student discounts on a range of goods and services. See www.16-25railcard.co.uk and check if you qualify for discounted rail travel with the Young Persons Railcard. Full time mature students over the age of 26 can also apply for this railcard. The railcard costs £30 per year and can cut rail travel costs by up to 1/3. Note however that restrictions do apply – see the website www.16-25railcard.co.uk for full details.

Protect Your Immigration Status as a UWS Student Visa Holder
Your student immigration permission is subject to you meeting Home Office requirements in relation to your studies. It is therefore important that you fully engage with your studies, always pay your tuition fees on time, limit travel to official holiday periods only and limit working hours to 20 hours per week in term time. If you fall behind with your studies or your fee payments, you would risk being withdrawn from your course.

4) Register with a Doctor (GP)
It is important that you register with a local doctor as soon as possible – don’t wait until you need medical treatment. For further information, see https://www.uws.ac.uk/international/living-in-the-uk/health-wellbeing/

Some doctor’s surgeries may be able to register new patients without them having to attend the surgery in person and may offer a phone/video appointment to register instead. If possible, begin your GP registration process online whilst you are self-isolating.

Please note: For GP letters, Scottish campus students should e-mail: hub@uws.ac.uk and London campus students should e-mail: london@uws.ac.uk.
5) Connect with other students online

There are a number of ways to connect with other students when you first arrive in the UK and it is important that you take the time to do so. By speaking to other students you can ask questions or get help with finding things in your area. To meet up with other students, check out the induction events which are listed on the UWS Information Portal: www.uws.ac.uk/about-uws/student-information-portal and visit The Union at www.uwsunion.org.uk/whatson/ for information on social events. Connect with other UWS international students through the Students’ Union Facebook page – https://www.facebook.com/UWSinternationalstudents/?ref=page_internal Watch out for events such as the ‘Global Hangout’ run by the International Student Support team which will also give you an opportunity to connect with students in an online social space.

If English is not your first language, you’ll have a lot of fun learning new words as you meet new people. Another way of practising your English is listening to ‘Elementary Podcasts’. You can listen to them on a PC/laptop, or download them to your phone: http://learnenglish.britishcouncil.org/en/elementary-podcasts.

Knowing how to act appropriately in social situations can be difficult at the best of times, especially when you are in a new country. The UK is famous for its strict etiquette rules – see GB Mag’s article for etiquette tips: http://greatbritishmag.co.uk/uk-culture/top-ten-british-etiquette-tips/

Different people have different ideas & experiences of personal relationships. Attitudes towards relationships in the UK might be quite different to those in your home country. For information on sexual health, see www.sexualhealthscotland.co.uk (for students in Scotland) or https://www.nhs.uk/live-well/sexual-health/ (for students in England).

Family

If you have travelled to the UK with your family, you will be keen to help settle in your family as well whilst you are studying. Please look at the UKCISA website: https://www.ukcisa.org.uk/Information--Advice/Visas-and-Immigration/dependants which has useful information such as Schooling for children. This will be different depending on whether you live in Scotland or England and you are best to contact the local authority / council that you will be residing in.

UWS may also be able to offer childcare support, please check out the UWS Funding and Advice information: https://www.uws.ac.uk/money-fees-funding/other-financial-support/discretionary-childcare-funds/

See [https://www.uws.ac.uk/international/living-in-the-uk/money-advice/](https://www.uws.ac.uk/international/living-in-the-uk/money-advice/) for advice and guidance to help you manage your money.

Non-EU students are required to register attendance with the Student Administration team twice (2 times) each academic session for Home Office monitoring purposes. Information on where & when you need to register will be sent to you by e-mail. If you are required to take your passport/visa for checking on campus, please wait for instructions regarding this & only go to the campus if you are not in a self isolation period. You will be able to complete online enrolment prior to your passport/visa being checked.

Remember to access your UWS E-mail account!

UWS provides free e-mail accounts to all students and there are many computer labs where the internet can be accessed. E-mails from personal e-mail accounts can get blocked by the UWS e-mail system. It is therefore always better to make contact from your student Banner e-mail address whenever possible. Wireless network access is provided in various locations on campus. If you have problems logging on, contact the IT and Digital Services team on your campus or call 0141 848 3999. You can access the internet wherever you are by using a Wi-Fi finder app. You can find PCs on any UWS Scottish campus through the UWS App.

1) Get to know your local area

The teaching styles, ways of learning, assessment methods and expectations universities in the UK have of their students may be very different to what you are familiar with in your home country. Adapting to these new ways of doing things may require you to approach your studies in a very different way. See the UKCISA webpage www.ukcisa.org.uk/Information--Advice/Preparation-and-Arrival/Study-skills-for-success for study tips and information on UK academic culture. If you need help with study methods, speak to your course supervisor or personal tutor in your School, or an Academic Skills Adviser.
